DEPARTMENT OF EDUCATION

TED-TALK - REPORT

Education. The change it needs.

The education system in India is age old and has to go through drastic change before it can be effective again. Importance of education tells us the value of education in our life. Education Everyone's life as it facilitates our learning, knowledge and skill. It completely changes our mind and personality and helps us to attain the positive attitudes. We must give importance to the education than other targets in life as it is the only source of real happiness in our life.
