**REPORT TO IQAC**

**ACTIVITY : TEDTALK**

**TOPIC : What are animals thinking and feeling?**

**SCHEDULE : 11.12.2021**

**CLASS : B.Sc. I, III & V Semester**

**TIME : 04.00 pm to 05.00 pm**

Carl Safina is an American ecologist and author of books and other writings about the human relationship with the natural world. His books include *Becoming Wild: How Animal Cultures Raise Families, Create Beauty, and Achieve Peace*, *Beyond words: What Animals Think and Feel*, *Song for the Blue Ocean*; *Eye of the Albatross*; *The View From Lazy Point: A Natural Year in an Unnatural World*; and others. He is the founding president of the Safina Center, and is inaugural holder of the Carl Safina Endowed Chair for Nature and Humanity at Stony Brook University. Safina hosted the PBS series *Saving the Ocean* with Carl Safina.

He has explained about What's going on inside the brains of animals? Can we know what, or if, they're thinking and feeling? Carl Safina thinks we can. Using discoveries and anecdotes that span ecology, biology and behavioral science, he weaves together stories of whales, wolves, elephants and albatrosses to argue that just as we think, feel, use tools and express emotions, so too do the other creatures- and mind- that share the earth with us.

In the spirit of ideas worth spreading, TEDx is a program of local, self-organized events that bring people together to share a TED-like experience. At a TEDx event, TEDTalks video and live speakers combine to spark deep discussion and connection in a small group.
